**MEET IN A TWO DAY'S SES-
SION AT GRELLTON,**
And Exchange Ideas, Listen to Good
Lectures and Have a First
Class Time.

Our enterprising farmers met at the
thriving little village of Grellton last
Wednesday and Thursday and held a
rousing session of institute that proved
the participants to be up and doing
relative to their own interests. For
the limited amount of advertising,

Here we are again
with a fine line of X-
mas goods. Call and see

ed. Fisk & Co., Jewel-
ers, opposite Bitzer
block.

considering the very bad roads
and other inconveniences. The attendance
was very gratifying, the M. E. church
in which it was held was crowded to
its fullest capacity during the whole
two day's session.

WEDNESDAY MORNING
the program was opened with music
and devotional exercises led by Rev.
Roberson. Alva Agee in a paper on
"The True Aim of Farmer's Organiza-
tions" showed himself in every way
capable of coping with the subject.
He held that legislation demanded
from the farmer a more thorough or-
ganization. He submitted the ques-
tion and proved that the farmer of
Ohio cannot compete with him of the
West owing to the difference in price
of lands.

J. F. Hickman, having been provid-
ed by the Ohio Agricultural Experi-
ment station, was introduced and gave
a very neat address on "Modern Ideas
on the Cultivation and Management of
Corn." He said that the ground
should be plowed and well manured
before plowing as fertilizing has a ten-
dency to draw the roots deeper into the
ground. Of course it is generally un-
derstood that the deeper the roots the
better able the corn is to withstand
drought. In regard to cultivating he
prefers shallow work but at frequent
intervals. He thought deep cultivation
is detrimental as it destroys roots that
are required to feed the stalk.

With the close of Mr. Hickman's
talk the institute recessed for dinner.
AFTERNOON SESSION.
Reconvening after dinner a selection
by the quartet, admirably executed,
was followed by Mr. Agee who gave a
dissertation on "Restoring Farm Ferti-
lity" in which he demonstrated that
the southern cow peas are one of the
best fertilizers to restore worn out land.
It was his opinion, based on practical
observations that 1 1/2 bushels to the
acre sown in May and turned under in
the fall will restore land from a
condition too poor to raise clover.

Mr. John Bensing one of the solid
citizens of Malinta gave his experience
in using the "Commercial Fertilizer."
He testified that he used the fertilizer
on potatoes for two years with the
best of results. Had experimented on
raising potatoes in cotton wood swamp,
planted two rows of potatoes, using
fertilizer on only one. When fall
came the fertilized row produced po-
tatoes weighing 2 pounds each while
those of the other row were not much
larger than hazel nuts. He also used
commercial fertilizer on corn with
success. He advised every farmer to
follow his example in this respect, as
it was very much superior to barnyard
manure.

"Gardening and Small Fruits" was
commented on by D. V. Hartman in
which he said he raised 75 bushels of
strawberries to the acre.
Eli Culbertson claimed to go this
several better, having raised as high
as 400 bushels to the acre.
"Preparing Corn Fodder for Winter
Use" was dwelled on by George Kryder.
He made this feature of farming
no small one and made it plain to his
hearers why the same should not be
neglected.

After supper came the
Evening Session.
"My Old Ox Team" was a selection
by the quartet, followed by "Some
obstacles to Agriculture," by J. F.
Hickman. Business principles, he
claimed were somewhat lacking in the
farmer, also, carelessness was somewhat
prominent among that class, as well as
spending money for liquor and neglect-
ing home. To remove such obstacles
he suggested that at the first of the
year an inventory of everything in and
out of doors be taken; go about your
work in a business way, keep up the
fences, harvest your crops at the prop-
er time; take care of your assets and
make honest efforts to increase them;
raise good stock, give it every attention;
take good care of machinery, help the
wife to lighten her work, make home
pleasant; give your children an interest
in the stock and they will have an in-
centive to assist you and will not leave
the farm just when they are old enough
to do some good.

His remarks were appreciated and
will no doubt bear good fruit.
A spicy and interesting paper under
the caption of "A Talk to the Boys,"
was read by Alva Agee.
After a beautiful recitation by Miss
Ella Thompson the Reading Circle
Club of Grellton closed the evening
program with music.
SECOND DAY.
On Thursday morning the farmers

were in their seats bright and early.
Listening to the first number, a paper
by Alva Agee entitled "Some Practical
Farm Experiments."
"Practical Stock Raising" was assigned
to John Garster of McClure who
claimed farmers cannot raise beef cat-
tle to a profit; that sheep raising was
the most profitable stock raising.
After Mr. Garster's suggestions, the
Grellton quartet rendered "The Home
That Used to Be" in a masterful way
that will long be remembered by the
listeners.

A paper "Tile Drainage" was read
by Mr. Hickman in which he treated
his subject as one of almost vital im-
portance to the farmer.
After dinner miscellaneous business
was transacted among which was the
election of a correspondent from each
township to do work for the State
Board of Agriculture. The electors
stand: Ridgeville, W. T. Chapman;
Liberty, W. T. Williams; Napoleon,
Geo. Russell; Harrison, A. C. Senter;
Damasus, Albert Garster; Flatrock,
Samuel Harrison; Monroe, Samuel
Overhills; Richfield, C. L. Fast; Mar-
ion, George Pittman; Pleasant, Bartlow,
Washington and Freedom townships
were not represented.

After a paper entitled "The Farmer
A lovely lot of sil-
verware just received.
Everything new; no old
stock. The best goods
at the lowest prices,
see? Fisk & Co., Jewl-
ers.

as a Student" and a song by the quar-
tet "The Saints and the Snake" which
created much laughter, the insti-
tute adjourned. Those attending
the institute were supplied with edibles
by the W. C. T. U. and Aid Society of
the M. E. Church, assisted by G. L.
Hollinger and Earl Huff; quite a
sum was realized with which a new
carpet for the church will be purchas-
ed.

TAXES MAY BE PAID
Without the Penalty After De-
cember 20th.

ATTORNEY GENERAL SAYS SO.
County Commissioners and Treas-
urer May Vote to Extend the
Time Without Demanding
Five Per Cent Penalty.

COLUMBUS, O., Dec. 16.—At the so-
licitation of the Commercial, Attorney
General Richards to-night gave a more
explicit opinion of the law governing
the payment of taxes. A few weeks
ago, State Auditor Poe explained that
the present law is exactly the same as
the old law, with the exception of that
clause which provides that the fees for
delinquency shall revert to the State in-
stead of to the county treasurer as un-
der the fee system. Mr. Poe left it to
the individual counties to decide
whether the time should be extended
for volunteer payments.
Attorney General Richards, consid-
ering the question, says:
"I think that county treasurers alone
have no right to extend the time for
payment of taxes. Such right belongs
to the county treasurers acting in con-
junction with the county commissioners.
I do not think it necessary to add
5 per cent penalty in case the delin-
quency is due to the inability of the
treasurer to accept all the taxes offer-
ed."

The Attorney General has rendered
no official opinion upon either question
which he decides for the Commercial.
Therefore if the officials of a county
under the old law decided to extend
the time of paying without imposing a
penalty, it would be legal. Attorney
General Richards says this penalty is
meant only in case of collection by dis-
tress or otherwise and not for voluntary
payments, received by the treasurer.
In that case they can do the same un-
der the new law as under the old.

SOME newspaper men having start-
ed the report that a girl in this state
kneads bread with her gloves on, an
esteemed contemporary rises to re-
mark: "So do we. We also need it
with our shoes on, with our pants on
and with all our clothes on. We need
it dog-gone bad and if our delin-
quency would pay up we would buy a
whole bake-shop."

MR. CLEVELAND was right when he
said: "We should strive to rid our-
selves and our countrymen of the idea
that there is anything shabby or dis-
graceful in economy, whether in pub-
lic or private life." It is distinctly a
Republican idea that because the coun-
try is rich it ought to be extravagant.

How little confidence the Democrats
in Congress felt in Secretary Foster's
annual report was shown by the fact
that immediately after it was submit-
ted a resolution was reported to the
House from the committee on Appro-
priations providing for an investiga-
tion of the condition of the treasury.

If there be one single Democrat who
is afraid to accept the responsibility
placed upon the party by the people,
which we doubt, he should lose no
time in getting out of the party.

It is difficult to say whether Montana
or the actresses are getting the most
advertising out of that silver statue
business.

ORGANIZED!
Napoleon to Have a New Saving In-
stitution by the Organization
of the

National Building and Loan Assoc-
iation of Cleveland.

An organization was formed last
Monday evening in F. D. Prentiss' law
office by a number of our reliable citi-
zens which should be productive of
great good to our city. Mr. G. E.
Miller, special agent of the Ohio Na-
tional Building and Loan Association
of Cleveland, Ohio, organized the Na-
poleon board of that company with the
following list of officers:

President, James W. Hanna.
1st Vice President, A. J. Vandenberg.
2nd Vice President, L. L. Orwig.
Secretary, A. S. Thiesen.
Attorney, F. D. Prentiss.
Treasurer, Oliver Higgins.
Appraisers, H. A. Meyerholtz, Chas.
R. Sweet, Chas. W. Jackson, Clark Z.
Slocum and John L. Thiesen.
Directors, R. W. Cahill, C. M. Fisk,
Joseph A. Miller and L. R. Siford.

The company of which this board is
a branch, is incorporated under the
laws of Ohio, and does business only in
this State, having branches in about
sixty different towns and cities, where-
in it is enabled to equalize the supply
and demand for money for building
without either having an idle surplus
on hand or disappointing or delaying
borrowers.

Loans are granted immediately when
applied for, and borrowers pay noth-
ing until they receive the check for loan.

The net rate of interest paid by bor-
rowers is less than 7 per cent. The
monthly payment on each \$100 share
of stock is sixty cents, and the profit to
the investor is highly remunerative.
There are no fines or forfeitures, and
members may withdraw at any time.
The security is the best, being solely
first mortgages on real estate. All
amounts, large or small, earn the same
dividends, the earnings being com-
pounded monthly.

The company also issues a fully paid
up stock for \$100 per share on which
eight per cent. is paid to investors
semi-annually. In short this insti-
tution would seem to present a model
depository for savings and a secure in-
come for investors under government
supervision, together with sufficient
ready money for borrowers, and we be-
lieve for its plan a careful investiga-
tion by our citizens.

The secretary will be glad to furnish
information and supply literature to
all interested.

The regular monthly meetings of the
Napoleon Board will be held on the
second Monday in each month at F.
D. Prentiss' law office, Washington St.

LIVURA MFG. CO.,
DEAR SIR:—Last
winter I had La Grippe
in its worst form, leav-
ing me in a terrible con-
dition, my Brain was
confused, my Heart weak,
and my legs refused to
hold me up, and the med-
icines were so sore that it
was painful to lie down.
I had continual head-
ache, and everything I
could not work, sleep, or eat, and my right side
became numb. Several doctors told me I had
incipient Paralysis, and that I could get no better.
I grew so weak that I could not leave the house.
Hearing of FITCHER'S LIVURA I got a bottle
and it helped me from the first. I took 4 bottles
in all, and am PERFECTLY WELL in every way,
and now work all day. I know that
